Role of telecommunications services
By Rapelang Rabana
Key Issues for Liberalization

- Interconnection
- Tariff Regulation
- Access to Scarce Resources
- Anti-competitive Practices
Traditional Telecommunications

- Devices
- Connectivity Services: SMS, USSD, WAP, Voicemail etc
- Connectivity

Next-generation Communications

- Devices – handset manufacturers have more control
- Connectivity Services: SMS, USSD, WAP, Voicemail etc

Many new service providers

- M-Health (diagnostic)
- M-Farming
- M-Learning
- M-Banking
- M-Health (info)
- Social Networks
- Browsers
- Search
