ITC’s Role in Aid for Trade

ITC is 100% Aid for Trade

ITC’s role in Aid for Trade

ITC’s three main strategic objectives correspond exactly to three of the five items on the Aid for Trade agenda.

ITC’s primary aim has always been to assist enterprises
- by helping to make the policy environments more friendly for export business
- by strengthening the institutions which provide services to exporters
- by helping small export enterprises to become more competitive

The International Trade Centre in Geneva is the largest multilateral team dedicated entirely to trade-related technical assistance

“We reaffirm the priorities established in paragraph 38 of the Doha Ministerial Declaration for the delivery of technical assistance and urge the Director-General to ensure that programmes focus accordingly on the needs of beneficiary countries and reflect the priorities and mandates adopted by members. ... In particular, we encourage all Members to cooperate with the International Trade Centre, which complements WTO work by providing a platform for business to interact with trade negotiators, and practical advice for small and medium-sized enterprises (SMEs) to benefit from the multilateral trading system.”

WTO Ministerial Declaration, Hong Kong, 2005
ITC’s **Contribution** to Aid for Trade

**ITC’s Mission**

ITC enables small business export success in developing countries by providing, with partners, trade development solutions to the private sector, trade support institutions and policy-makers.

**ITC’s Methodology**
