SEMIRAN 4: SERVICES IN GLOBAL VALUE CHAINS: KEY ISSUES FOR LDCS

Date: March 2015, tbc

This seminar will discuss the evolution of ‘business to business’ (B2B) trade in intermediates, explore the role of Services in GVCs, the ‘value-added ladder’, and Services GVCs such as outsourcing. Practical examples will include making use of TiVA data and insights for both trade and industry policies. Discussion will focus on how services negotiations and policies, as well as export promotion efforts, can affect LDC SMEs' ability to access GVCs. It will also identify the domestic drivers of services competitiveness in the GVC era.

SEMIRAN 5: SERVICES IN BILATERAL, REGIONAL AND PLURILATERAL NEGOTIATIONS: IMPLICATIONS FOR THE GATS AND FOR LDCS

Date: April 2015, tbc

This seminar will explore Services and GATS-related issues in FTAs, EPAs and other negotiations (eg, TiSA). Particular attention will go to LDCs' Services agreements and negotiations, and other countries’ agreements in areas of interest to LDCs. The seminar will feature interactive discussion on challenges: preparing for negotiations; asymmetric balance of power; positive, negative, hybrid approaches to scheduling; S&D; managing political realities; overcoming brick walls; achieving a cooperation and implementation agenda etc. Some interesting issues:
- Modes 1 and 2: How will FTAs deal with Modes 1 and 2, as Modes 3 and 4 are increasingly in separate chapters and schedules of commitments?
- Mode 3: Are Investment chapters increasingly replacing BITs? Implications for LDCs
- Mode 4: Is Mode 4 being redefined? (migration issues, labour standards, MRAs)
- How do FTAs deal with crossborder data flows?
- How can LDCs promote their interests in IT and e-commerce?
