The fifth edition of the Trade for Sustainable Development Forum will discuss SDG 12 “Responsible Consumption and Production” and its relationship with sustainable trade in global value chains.

As economic growth accelerates, unsustainable consumption and production patterns exacerbate inequality and natural resource depletion. Business as usual is not an option anymore, not in the medium-term to achieve the SDGs by 2030 nor long term. Businesses, governments and consumers are central players in driving changes towards more sustainable production processes in global value chains and domestic consumption patterns. Demand for improved information and communication on product sustainability, sustainable public procurement and new products and services with lower environmental impact are some examples of how consumers, governments and companies are acting in this front.

SDG 12 aims at “doing more and better with less”, by promoting a more resource efficient economy and encouraging industries, companies and consumers to move towards more sustainable patterns of consumption. For global value chains, shifting towards greener production practices demands collaboration among all actors throughout the value chain; from producers to final consumers.

Forum’s objectives:

- Provide a unique platform to discuss sustainable trade practices – and identify innovative best practices - vis-à-vis the implementation of SDG 12.
- Identify challenges and opportunities for SMEs arising from a shift to a greener economy for the implementation of SDG 12.
- Provide real-life examples of innovative practices in ITC’s projects and by partners we work with.

PROGRAMME AT A GLANCE

Monday, 1 October, ITC headquarters – Panel sessions

Interactive panels: discussions on different aspects of the relationship between sustainable trade and SDG 12

Networking cocktail

Tuesday, 2 October, ITC headquarters – T4SD & Partners Day

ITC Project Labs: interactive sessions to present T4SD’s projects through the lens of different targets of SDG 12. Session speakers are project partners, beneficiaries, ITC managers and donors. The sessions are held simultaneously, allowing participants to attend the sessions of their preference.

Partners Day with UNCTAD BioTrade: panel sessions organized by ITC & UNCTAD BioTrade to discuss consumption/production trends in biodiversity-based trade.

Technical Working Group Meeting, ITC HQ: per invitation only

Wednesday, 3 October, WTO Public Forum

High-level panel at the WTO Public Forum
Monday 1 October – ITC HQ

8:15-9:15  REGISTRATION

9:15-9:30  OPENING ADDRESS
Speaker  Arancha González, Executive Director, International Trade Centre (ITC)

9:30-9:50  SPECIAL KEYNOTE SPEECH
Speaker  Mia Amor Mottley, Prime Minister, Minister of Finance, Economic Affairs and Investment, Barbados

9:50-11:10  SESSION 1: Sustainable consumption: challenges and opportunities
Consumers are a driving force in sustainable trade. Which lessons can we draw from different initiatives driving sustainable consumption? How to overcome existing challenges to scaling models of sustainable consumption? What are the opportunities for businesses?

Speakers  Claire Kneller, Head of International Food, The Waste and Resources Action Programme (WRAP)
Charles Arden-Clarke, Head of the 10-Year Framework of Programmes on Sustainable Consumption and Production (10YFP) Secretariat, UN Environment
Alison Cairns, Director of the Food Reform for Sustainability and Health (FReSH), World Business Council For Sustainable Development (WBCSD)
Gilbert Sindjou, Sustainability Expert

Moderator  Eliza Anyangwe, Journalist and moderator

11:10-11:40  Coffee and networking break

11:40-13:00  SESSION 2: The role of standards in driving sustainable production and consumption
Standards can have a big impact in advancing SDG 12. How can they influence sustainable production practices and consumer behaviour? How to maximize these opportunities for SMEs in developing countries?

Speakers  Santiago Fernández de Córdoba, Coordinator, United Nations Forum on Sustainability Standards (UNFSS)
Norma Tregurtha, Director of Policy and Outreach, ISEAL Alliance
Horacio Caperan, Executive Director for External Affairs, Joint Program on the Science and Policy of Global Change, Massachusetts Institute of Technology (MIT)
Margreet Vrieling, Associate Director, Fair Wear Foundation

Moderator  Eliza Anyangwe, Journalist and moderator

13:00-14:00  Lunch break (light lunch provided)

14:00-14:30  KEYNOTE SPEECH
Speaker  Devry Boughner Vorwerk, Chief Communications Officer and Corporate Vice President, Global Corporate Affairs, Cargill

14:30-15:45  SESSION 3: Sustainable production practices in the textile and apparel sectors
Clothing is one of the largest industries in the world economy, with complex value chains crossing national boundaries and driven by international brands. With the proliferation of social audits in the sector, costs and audits are increasing. Weak transparency and increasing compliance burdens along the supply chain have become the norm.

How are manufacturers, brands, retailers and other stakeholders dealing with these challenges? How can driving convergence in social and labour practices in the textile and apparel sectors be achieved? What are the best practices driven by businesses and multi-
stakeholder industry initiatives to reduce the proliferation of social audits? How are these initiatives improving transparency and accountability across the industry? This panel aims to unpack these questions and offer some practical solutions.

**Speakers**

- Baptiste Carriere-Pradal, Vice President, Transparency, Sustainable Apparel Coalition (SAC)
- Janet Mensink, Project Director, Social and Labour Convergence Project (SLCP)
- Nikhil Hirdaramani, Director, Hirdaramani Group

**Moderator**

Eliza Anyangwe, Journalist and moderator

15:45-16:05 Coffee and networking break

16:05-17:20 **SESSION 4: The future of sustainable consumption in emerging markets**

With 40 percent of world’s population living in emerging markets, the world’s center of economic gravity has been slowly shifting. What are the major profiles of consumers in these economies and how will they shape sustainable consumption in the future? How are emerging markets responding to sustainable consumer trends? How can businesses support the shift towards more sustainable patterns of consumption?

**Speakers**

- Helga Vanthournout, Senior Knowledge Expert, McKinsey & Company
- Guillermo Valles Galmes, Grupo de Países Productores del Sur (GPS)
- Naomi Scott-Mearns, Sustainable Consumption Manager, Consumers International
- Manish Pande, Joint Director and Head of Project Analysis and Documentation Division, Quality Council of India (QCI)
- Gilbert Sindjou, Sustainability Expert

**Moderator**

Eliza Anyangwe, Journalist and moderator

17:20-17:30 **WRAP-UP REMARKS OF DAY 1**

**Speaker**

Anders Aeroe, Director, Division of Enterprises and Institutions, International Trade Centre (ITC)

17:30–19:00 **COCKTAIL RECEPTION**
Tuesday 2 October - ITC HQ

8:15-9:30  REGISTRATION

9:30-12:30  OPEN HOUSE: T4SD Project Labs

9:30-10:45  Project Lab 1: EU Cities for Fair and Ethical Trade Award

This Project Lab will uncover the making of an innovative initiative for ITC and T4SD, collaborating for the first time with an unusual partner and audience – the EU cities and their citizens. The Lab will offer an insight into the process of crafting a new Award that highlights the role of cities and local authorities in achieving the global sustainability goals and a sneak peek into the Compendium of Best Practices emerged from applications received from cities across the EU. The winner of the Award will be invited to tell their side of the story and to present the Award prize; a development project with ITC. This Lab will be run as a real-time conversation between the speakers and the audience.

Find out more about the project: [www.trade-city-award.eu](http://www.trade-city-award.eu)

**Speakers**

Els Michiels, Representative of Ghent, the winning city of the inaugural Award
Gabriela Alvarez, Director and Co-founder, Latitude Strategy Consulting, Colcocoa - Hacienda La Tentacion, No Name Chocolates
Veronica Rubio, Executive Director, Proterra Foundation

**Facilitator**

Petra Walterova, T4SD Expert

9:30-10:45  Project Lab 2: ITC Sustainability Map & GS1 collaboration: empowering the business community to achieve the SDGs

This project lab will highlight how the T4SD Programme and GS1 have joined forces to provide farmers and supply chain partners with GS1 identifiers to become visible in global trade, improve and communicate sustainability practices and connect to buying companies for increased market access. This session will present on-going projects to scale-up the use of GS1’s Global Location Number services on the Network of ITC Sustainability Map.

**Speakers**

Timothy Marsh, Senior Director Product Traceability, Sustainability & Blockchain, GS1
Katherine Tabares, Agribusiness Manager, Logyca
Valérie Mazzoni-Colin, Chief Marketing & Innovation Officer, GS1 France
Bijoy Peter, Head of Technical Services, GS1 India

**Facilitator**

Gregory Sampson, T4SD Expert

10:45-11:15  Coffee and networking break

11:15-12:30  Project Lab 3: The future of textile: strengthening climate resilience of international value chains

This Project Lab will highlight the different ways the private sector can strengthen its climate resilience. The Lab will showcase the variety of responses to climate change of stakeholders along the international textile value chain from Morocco to Europe. The session will offer insights from the T4SD project to strengthen climate resilience of international value chains, especially drawing from the experiences in the Moroccan textile sector. The team will facilitate a dynamic and interactive session between the audience and speakers to promote the dialogue on climate change and its risks for international value chains.

**Speakers**

Carole Hommey, Coordinator, Initiative for Compliance and Sustainability (ICS)
Sebastian Homm, Advisor for the Project “Sustainable Economic Policy and Private Sector Development”, German Corporation for International Cooperation GmbH (GIZ)
Anyay Boyd, Senior Climate Change Consultant, Konsult 360

**Facilitators**

Annegret Brauss & Delphine Clement, T4SD Experts
11:15-12:30  **Project Lab 4: Promoting sustainable investment practices: challenges and opportunities for foreign investors in Africa**

Drawing on the findings of the survey implemented by the Partnerships for Investment and Growth in Africa (PIGA) and T4SD, the lab will highlight the theme of sustainable investment in Africa. Speakers will share their perspectives on:

- Key findings of the ITC study on sustainable investment practices in Africa.
- How to measure the impact of “foreign sustainable investment”.
- How to scale-up best practices from the ground.
- How to maximize the benefits of sustainable investment for African SMEs.

The Lab is expected to generate debate on the risks and opportunities for foreign investors to implement sustainable investment practices in African countries and the role of public and private stakeholders to create an enabling environment for sustainable foreign investment.

*Find out more about the PIGA project, which is funded by the UK Department for International Development: [www.intracen.org/piga](http://www.intracen.org/piga)*

**Speakers**

Vincent Dufresne, CFO, Symbiotics  
Isaac Tallam, Senior International Trade Specialist, Kenya  
Tianyu Mao, Project Adviser, Office of Asia and the Pacific, International Trade Centre (ITC)

**Facilitators**

Ana Batalhone & Madison Wilcox, T4SD Experts

11:15-12:30  **Project Lab 5: Making effective and trustworthy sustainability claims: Guidelines for Providing Product Sustainability Information**

This project lab is aimed at raising awareness on the [Guidelines for Providing Product Sustainability Information](http://www.intracen.org/publication/Guidelines-product-sustainability), developed by UN Environment and the T4SD Programme in consultation with various sustainability and marketing experts. The Guidelines aim at providing actors in the value chain and public sector professionals with information on how to make effective, trustworthy claims to consumers, on product-related sustainability information.

During the Lab participants will get acquainted with the principles of the Guidelines, hear testimonials on applying the Guidelines when developing sustainability claims and labels and be given the opportunity to apply the principles of the Guidelines through a practical exercise.

**Speakers**

Bettina Heller, Associate Programme Officer, Consumption and Production Unit, UN Environment  
Margreet Groot, Cocoa Life Communications & Budget manager, Lead Women’s Empowerment, Mondelēz International

**Facilitator**

Regina Taimasova, T4SD Expert

12:30 -13:45  Lunch break (light lunch provided)

13:45-14:00  **KEYNOTE SPEECH**

**Speaker**

Jocelyn Blériot, Executive Officer, Ellen MacArthur Foundation

14:00–17:00  **Partner’s event with UNCTAD BioTrade**

14:00-15:20  **SESSION 5: Sustainable production for safeguarding biodiversity**

The 2018 Biodiversity Barometer of UEBT revealed that 79% of consumers believe that companies have a moral obligation to have a positive impact on people and biodiversity. In fact, business operations have the power to directly impact the current rate of biodiversity loss, through sustainable production patterns. Sustainable sourcing, transparency, traceability, and the implementation of social and environmental processes across supply chains in line with
the 2030 Agenda and the Sustainable Development Goals (SDGs) are some of the practices that are becoming increasingly widespread.

This session will address issues such as (a) How are companies addressing social and environmental criteria within their business models? What are the costs and benefits? (b) How do SMEs and TNCs incorporate biodiversity and build sustainable livelihoods into their business models and sourcing areas? and (c) How are their actions contributing to the SDGs, in particular SDG 12?

**Speakers**

United Nations Conference on Trade and Development (UNCTAD) representative

Lorena Jaramillo, Economic Affairs Officer, United Nations Conference on Trade and Development (UNCTAD)

Anne Schick, Swiss State Secretariat for Economic Affairs SECO

Lisa Huyen, General Director, Vina Samex JSC, Viet Nam

Annette Piperidis, Manager of Sustainable Sourcing, Weleda

**Moderator**

Eliza Anyangwe, Journalist and moderator

**15:20-15:50**

Coffee and networking break

**15:50-17:10**

**SESSION 6: Catering to consumer demands – Sustainable consumption of biodiversity-based products**

The Development Bank of Latin America (CAF) estimated the market for biodiversity-based products at US$290 billion with 19% annual growth until 2020. According to the 2018 Biodiversity Barometer, 83% of consumers expect companies to respect biodiversity, preferring to purchase products that are biodiversity-friendly and sustainable. Sustainability is a crucial component for companies’ survival in capturing the growing demand for sustainably sourced products. The sales of natural products, specifically, have increased from US$ 1.9 billion in 1980 to US$ 141 billion currently.

This session will address: (a) What are the key drivers for the growing demand for sustainably sourced products? How does this support the SDGs, particularly SDGs 12, 15 and 17? (b) How can SMEs, TNCs, government and civil society promote and raise awareness of the importance of sustainable consumption and biodiversity?

**Speakers**

Charles Arden-Clarke, Head of the 10-Year Framework of Programmes on Sustainable Consumption and Production (10YFP) Secretariat, UN Environment

Rik Kutsch Lojenga, Executive Director, Union for Ethical BioTrade (UEBT)

Franziska Staubli, Deputy Head of Sustainability and Issue Management, MIGROS

Lorena Jaramillo, Economic Affairs Officer, United Nations Conference on Trade and Development (UNCTAD)

**Moderator**

Eliza Anyangwe, Journalist and moderator

**17:10-17:30**

**HELICOPTER CONCLUSION**

**Speaker**

James Kanter, EU correspondent, Freelancer

Wednesday 3 October - WTO HQ, Room W

11:30-13:00  HIGH-LEVEL SESSION - Sustainable Trade in the Connected Future
With continual innovation and increasing complexity along global value chains, international trade is changing at a fast pace. For small and medium-sized enterprises (SMEs) in developing countries, seizing the opportunities presented by these trends remains a challenge. How can SMEs upstream and value chain tiers downstream take advantage of policies, networks and supply chain innovations to engage in sustainable production practices? Meanwhile, the purchasing power of a more ‘conscious’ consumer is becoming a key driver for sustainable and inclusive production – and trade – of the future. How does one effectively communicate with consumers given the complexity of the subject?

The session will explore multi-level policy approaches, market-based tools, networks and other supply chain innovations that help upstream and downstream value chain actors engage in sustainable consumption and production practices, and their impact on trade in the context of the 2030 agenda.

Speakers
Arancha González, Executive Director, International Trade Centre (ITC)
Teresa Ribera Rodríguez, Minister for the Ecological Transition, Spain
Ovais Sarmad, Assistant Secretary-General, Deputy Executive Secretary, United Nations Framework Convention on Climate Change (UNFCCC)
Joyce Njogu, Head of KAM Consulting, Kenya Association of Manufacturers (KAM)
Alvaro Cedeño Molinari, Ambassador, Permanent Mission of Costa Rica to the WTO

Speakers and Moderators

Monday 1 October

OPENING ADDRESS

Arancha González, Executive Director, International Trade Centre (ITC)

Arancha González has served as Executive Director of the International Trade Centre (ITC), the joint agency of the United Nations and the World Trade Organization, since September 2013. Before joining ITC, Ms. González was Chief of Staff to World Trade Organization Director-General Pascal Lamy from 2005 to 2013. During her tenure at the WTO, she played an active role in launching the Aid for Trade initiative. Prior to working at the WTO, Ms. González held several positions at the European Commission between 2002 and 2004, and was was the European Commission spokeswoman for trade and adviser to the European Union Trade Commissioner. Ms. González co-chairs the World Economic Forum (WEF) Agenda Council on the Future of Trade and Investment.

SPECIAL KEYNOTE SPEECH

Mia Amor Mottley, Prime Minister, Minister of Finance, Economic Affairs and Investment, Barbados

The Honourable Mia Mottley is the 8th Prime Minister of Barbados. She became the first woman to occupy that high office, following General Elections in May 2018. An attorney-at-law and Queen’s Counsel, Prime Minister Mottley has been active in the political life of Barbados for almost three decades. First elected in 1994 she is presently in her sixth term as Member of Parliament for the constituency of St. Michael North East. From 1994 to 2008 Miss Mottley served in the Cabinet of three successive Administrations, first as Minister of Education and Culture, then Attorney General and Minister of Home Affairs, and then Minister of Economic Affairs. In 2003 she was appointed Deputy Prime Minister. Prime Minister Mottley currently also holds the portfolios of Minister of Finance, Economic Affairs and Investment.

MODERATOR

Eliza Anyangwe, Journalist and moderator

Eliza Anyangwe is a Cameroon-born, London-based writer, editor and moderator. After seven years at the Guardian (and a short stint at CNN International) she set up The Nzinga Effect, a platform to tell the stories of women from Africa and the diaspora. A guest lecturer on the international communications programme at IULM in Milan, Eliza has also spoken on panels from SXSW Interactive in Austin, to the Web We Want festival in London. As a moderator, she has worked for organizations including Dell, Southbank Centre, Stockholm International Water Institute, ITC, Ecosoc and Government of Belgium and many others. Eliza is fellow of the Royal Society for the Arts.
SESSION 1: Sustainable consumption: challenges and opportunities

Claire Kneller, Head of International Food, The Waste and Resources Action Programme (WRAP)

Claire is Head of Food for WRAP Global, her role is to lead all WRAP’s work on sustainable food systems outside the UK. Right now, she’s focussed on helping set the world on a trajectory to delivering Sustainable Development Goal 12.3. Claire has been with WRAP for 12 years working on projects ranging from supporting new anaerobic digestion infrastructure to developing a national food waste strategy for Mexico. Working with countries from Canada down to Australia, Claire leads an extremely capable team of experts on food waste measurement, whole supply chain collaboration, consumer food waste prevention and more. Claire also leads WRAP Global’s fundraising and business development functions, building long term relationships with donors and supporters.

Charles Arden-Clarke, Head of the 10-Year Framework of Programmes on Sustainable Consumption and Production (10YFP) Secretariat, UN Environment

Charles Arden-Clarke trained as a zoologist and ecologist and initially worked for the Political Ecology Research Group in the UK, primarily on the environmental impacts of nuclear power and differing farming systems. Between 1990 and 1999 he developed and led WWF International’s Trade and Investment programme, focusing on the environmental impacts of WTO rules and negotiations, related ISO standards and the proposed Multilateral Agreement on Investment. He has worked for UNEP since January 2000, initially on the effects of trade liberalisation on the environment and the relationship between WTO rules and multilateral environmental agreements. Since 2004 he has worked at the Economy Division in Paris, mostly on sustainable consumption and production (SCP). He is currently Head of the Secretariat of the One Planet network, formed to implement the “10YFP”.

Alison Cairns, Director of the Food Reform for Sustainability and Health (FReSH), World Business Council For Sustainable Development (WBCSD)

Alison Cairns is Directory of the Food Reform for Sustainability and Health (FReSH) project. It is one of the key planks of the WBCSD’s effort to create a system-wide narrative and set of business solutions for the transformation of the Food system. Alison joined WBCSD from Unilever where she was Global Advocacy and Partnerships Director for Sustainable Agriculture and Food Security. There she led on the food and nutrition agenda, and was a member of the UK Government Rio+20 Food Security Task Group. Previously, she has held a number of corporate, public policy and campaigning roles including: Head of Government Affairs with the Royal College of Nursing; a Campaigner with Oxfam to advance the Make Trade Fair initiative.
SESSION 2: The role of standards in driving sustainable production & consumption

Santiago Fernández de Córdoba, Coordinator, United Nations Forum on Sustainability Standards (UNFSS)

Santiago Fernandez de Cordova is a Senior Economist at UNCTAD and Coordinator of UNFSS. He has been a trade policy expert for over 20 years, particularly on market access issues and structural adjustment. He advises government on sustainability standards and trade policy. He participated as a speaker on economic development and trade liberalization at over 100 conferences worldwide and was a Visiting Scholar at Georgetown University's School of Foreign Service. He published the book “Coping with Trade Reform” (Palgrave – McMillan), as well as numerous studies on economic development and trade policy. Prior to serving at the UN, he worked in management consulting and investment banking. Santiago holds an MBA from the University LUISS Guido Carli and a degree in Economics from Universidad de Navarra.

Norma Tregurtha, Director of Policy and Outreach, ISEAL Alliance

Norma Tregurtha is the Director of Policy and Outreach at the ISEAL Alliance. Norma’s work is focused on interacting with key business groups, governments and NGOs to advocate for the use of credible standards to drive sustainability impacts. The link between standards and regulation is also a special area of focus for Norma’s work and her expertise includes; emerging markets, government use standards, sustainable public procurement, the finance sector’s use of standards, the SDGs, as well as the relationship between standards and other sustainability tools such as reporting initiatives. Norma has a master’s degree in economics from the University of Stellenbosch, South Africa.

Horacio Caperan, Executive Director for External Affairs, Joint Program on the Science and Policy of Global Change, Massachusetts Institute of Technology (MIT)

Horacio is the MIT Joint Program’s Executive Director for External Affairs. He has over twenty years of experience in strategic planning, marketing, business development and program management for organizations in the transportation, agroindustry, life sciences and technology sectors in the US and international markets. He is an alumnus of the MIT Sloan School of Management where he earned an MBA with honors. Previously he received a Fellowship in the Management of Clean Energy Ventures from Boston University and the New England Clean Energy Council. He holds a dual Master’s in Biology and Biotechnology from Tufts University. He earned a B.S. in management and economics in Chile, where he later held positions as a professor of economics and finance.

Margreet Vrieling, Associate Director, Fair Wear Foundation

Before joining Fair Wear Foundation in 2010, Margreet Vrieling worked at the international department of a trade union for almost a decade. She took part in ILO conferences in the delegation of the Netherlands, along with her contributions to the Committee of Experts of Fair Wear Foundation. Initially, Margreet was responsible for FWF’s work in Bangladesh and Turkey. Since 2013, Margreet has been heading the verification team. She enjoys guiding brands in taking responsibility to monitor their supply chain, solving workers problems related to their rights, and is keen on discussing the changes necessary in the sector to remediate the challenging problems and improve the lives of garment workers. Since 2016, she is an Associate Director at Fair Wear Foundation.
KEYNOTE SPEECH

Devry Boughner Vorwerk, Chief Communications Officer and Corporate Vice President, Global Corporate Affairs, Cargill

Devry Boughner Vorwerk serves as Chief Communications Officer and Corporate Vice President, Global Corporate Affairs for Cargill, a trusted partner for food, agriculture, financial and industrial customers in 125 countries. Vorwerk has spent her career at the intersection of geopolitics, stakeholders, and business. Previously, she led Cargill’s government relations activities in Washington, D.C. and Corporate Affairs for Latin America. She also served as Director of Cargill’s International Business Relations, specializing in its Asia Pacific trade and investment portfolio. Prior to joining Cargill, Vorwerk worked at the U.S. International Trade Commission and as senior economist in agricultural affairs at the Office of the U.S. Trade Representative. In 2014, she was named a Young Global Leader by the World Economic Forum and named to the Holmes Report’s Influence 100 list in 2017.

SESSION 3: Sustainable production practices in the textile and apparel sectors

Baptiste Carriere-Pradal, Vice President, Transparency, Sustainable Apparel Coalition (SAC)

Baptiste Carriere-Pradal opened the European office of the SAC and oversees overall European activities. He coordinates the collaborative efforts of the coalition towards European governments, authorities, and organisations, as well as the transparency effort of the Coalition. Baptiste is responsible for launching the Social and Labor convergence project. Prior to SAC, Baptiste created and was heading the sustainability department at Decathlon. Baptiste has been based in the Czech Republic, Romania, and Thailand, where he launched and managed their global social and labor program. Baptiste holds a master’s degree in physical science, as well as an engineering degree. He was part of the executive in residence program with the INSEAD from 2015 to 2016, and participated in the advisory committee for the OECD Due Diligence Guidance for the textile sector as well as ECAP.

Janet Mensink, Project Director, Social and Labour Convergence Project (SLCP)

Janet Mensink holds almost 20 years experience in Sustainability and Apparel. She started her career as in consultancy then moved to Solidaridad, where she held a number of different roles. As International Program Manager Sustainable Cotton&Textiles of the Solidaridad Network, she was responsible for high-level projects in the supply chain, as well as initiatives promoting sustainable market development and direct partnerships with brands and retailers. Since end 2015 she is director for the Social&Labor Convergence Project (SLCP), which aims to bring together all relevant stakeholders to create a unified approach to social and labor assessments in the apparel and footwear supply chain. Janet has served several boards and councils. This included Council member of the Better Cotton Initiative and member of the Index Development Council for SAC.

Nikhil Hirdaramani, Director, Hirdaramani Group

Nikhil Hirdaramani is a Director of the Hirdaramani Group. In his 20 years’ experience, Nikhil has been involved in marketing and supply chain, developing and managing relationships. Nikhil is a strong advocate in sustainability. He has taken a leading role in the group’s sustainability initiative. Mihila, one of its newer facilities in Sri Lanka is the first ever carbon neutral facility in Asia. He has been the chairperson at the Sri Lanka Sustainability Forum. Nikhil currently serves as Vice Chair of the Sustainable Apparel Coalition and as a past member of the Steering Committee for the Social and Labor Convergence Project. Nikhil has a BA in International Relations from Tufts University in the USA and a MBA from Imperial College, London UK.
Conor Boyle, Head of Programme Development, Learning and Country Programmes for Better Work, International Labour Organization (ILO)

Conor Boyle is the Head of Programme Development, Learning and Country Programmes for Better Work, based in the International Labor Office (ILO) in Geneva. He is part of Better Work’s Senior Management and is responsible for the programme’s donor relations and learning strategies as well as collaboration within the ILO on Better Work’s influencing agenda. Prior to his role on the global team, Conor worked in Cambodia for the Better Factories Cambodia Programme. Conor joined the ILO after 12 years working on capacity building and leadership programs for development, private and public sector staff and organisations. The vast majority of his experience involves work in the apparel, textiles and footwear industries; he also has practical experience in the pharmaceutical, aquaculture and electronics industries as well as in the forestry sector.

SESSION 4: The future of sustainable consumption in emerging markets

Guillermo Valles Galmes, Grupo de Países Productores del Sur (GPS)

Member of GPS Uruguay. Ambassador Guillermo Valles Galmes (1955) is a career diplomat with over 40 years of professional experience, and has held several relevant political positions, including Deputy and Acting Foreign Minister of Uruguay. He served for the U.N. as Director of Division of International Trade (UNCTAD). Mr. Valles participated in numerous bilateral and multilateral trade negotiations, including those leading to the establishment of Mercosur. He chaired negotiations on WTO Rules for six years and is a frequent panel member in the WTO Dispute Settlement Mechanism. He graduated from the School of Law of the Universidad de la República in Uruguay, with the title of Doctor in Diplomacy, and has received decorations from Brazil, Chile, Paraguay, Italy, and recognition for services from the Russian Federation and WWF.

Naomi Scott-Mearns, Sustainable Consumption Manager, Consumers International

Naomi is based in London and has four years experience of working in the sustainability sector for a variety of organisations. She currently works for Consumers International who co-lead the Consumer Information Programme of the One Planet Network (www.oneplanetnetwork.org/consumer-information-scp), and Naomi sits on the Coordination Desk of the programme with the main aim being to identify synergies and build cooperation among actors, ensuring the coordinated promotion, implementation and expansion of the programme. Before joining Consumers International, Naomi was a Sustainability Consultant for a large real estate company. Naomi has a master’s degree from the University of Edinburgh and an undergraduate degree from the University of Oxford.

Manish Pande, Joint Director and Head of Project Analysis and Documentation Division, Quality Council of India (QCI)

Dr. Manish Pande holds a doctorate in forestry from the Forest Research Institute and worked with the various organizations including Worldwide Fund for Nature – India, SGS – a Swiss based MNC and now is with Quality Council of India as Joint Director. He holds the Gold Medal at Masters in Forestry. He has over 20 years of experience in different capacities in research, environmental, voluntary and conformity assessment. He has been in the conformity assessment now for over 15 years in handling various private, voluntary and international standards. He is instrumental in formulation and implementation of voluntary certification schemes for governmental and intergovernmental bodies for Schemes including SAARC GAP, Yoga Personnel Certification, City Ranking etc. He has worked as a consultant for FAO and UNCTAD for designing/execution of project/study and is trained as an assessor for accreditation as per ISO 17065, 17020, and 17024 standards.
WRAP-UP REMARKS OF DAY 1

Anders Aeroe, Director, Division of Enterprises and Institutions, International Trade Centre (ITC)

Anders Aeroe has been Director of the Division of Enterprises and Institutions of the International Trade Centre (ITC) since 2016. Mr Aeroe has focused on the interrelated topics of trade development at enterprise, institutional and policy level, trade intelligence, competitiveness, sector and value chain development, and industrial transformation. Before ITC, he worked as a regional adviser to the Danish Industrialisation Fund for Developing Countries and prior to this position as Senior Manager Trade Promotion at the Western Cape Trade and Investment Promotion Agency (WESGRO). Prior South Africa, Mr Aeroe held positions as Head of the Research and Policy Division at the Danish Society of Engineers and Export Manager at the Danish Federation of Small and Medium-Sized Enterprises.
