Proyectos

OIC: Trade and market intelligence for ICDT

● PROJECT

The project will strengthen ICDT services on trade intelligence to support the public and private sector from the Organisation of Islamic Cooperation (OIC) to make better informed decisions and, in the long term, to contribute to an increase of trade between OIC Member States through the embedding...

Global: Enhanced transparency and simplified trade formalities for business competitiveness

● PROJECT

The objective of this project is to enhance the functionalities and effective use of Trade Facilitation Portals by beneficiary countries with a view to create a more conducting cross-border environment for traders through improved transparency and simplified trade formalities. This project...

Afghanistan: Advancing trade (Phase II)

● PROJECT

Agribusiness and food systems

Manufactured goods

International trade is an important driver of growth and a means to facilitate Afghanistan's path away from aid dependency. As such, the Government of Afghanistan has prioritized trade, regional cooperation and private sector development as critical elements for its economic development...

Ethical Fashion Initiative

Featured

● PROGRAMME

Fibres, textiles and clothing

Creative industries

For the Ethical Fashion Initiative (EFI), lifestyle choices impact livelihoods. EFI acts as a bridge, connecting marginalized artisan communities in emerging economies with discerning global lifestyle brands, creating meaningful work and fair, decent working conditions. We develop and...

Afghanistan: Trade-related assistance

● PROJECT

The initiative supports laying the foundation for strengthening the country's trade capacities and building a business-friendly environment, with a long-term goal of Afghanistan becoming a vibrant regional economic hub. The intervention is a recognition of ongoing efforts by the Afghan...
