

## **Germany**

Thank you Madame Chair,

Germany also supports the common donor statement, delivered by CAN and I would like to thank my CAN colleague for it.

We appreciate the hard work of the evaluation and the efforts of the management response. It is very concrete, short and displays clear responsibilities.

We believe in the important work of ITC. That's why I am pleased to announce that we continue our support and have just recently signed an agreement to provide an additional funding of 2 Mio € for 2015.

I thank you.
