# TRADE FOR SUSTAINABLE DEVELOPMENT PRINCIPLES

---

We hereby intend to embrace, support and enact within our sphere of influence the Trade for Sustainable Development Principles, a set of core values to support sustainable trade:

- **SUSTAINABILITY**  
Support and promote sustainable trade practices, with regards to social, environmental, economic and management, quality and ethics issues at stake in the production, processing and trading of goods and services.
- **TRANSPARENCY**  
Contribute to efficiency in global supply chains by clear demonstration of openness to sharing good practices, to foster transparency, trust and inclusiveness at all levels of global supply chains.
- **HARMONIZATION**  
Build on existing resources and methodologies with a collaborative approach avoiding duplication that may provoke proliferation of standards, multiplication of audits or assessment methodologies.
- **SUSTAINABLE DEVELOPMENT GOALS**  
Act in alignment to the United Nations Post-2015 Development Agenda, which builds upon the Millennium Development Goals, with a view to developing a set of global sustainable development goals.

We agree to make this Letter of Endorsement public by authorizing the International Trade Centre (ITC) to display the name of our organization on ITC's Trade for Sustainable Development web-page. As a Signatory we understand that we may revoke our consent and withdraw from the list of signatories at any time in writing and without reason.
