International Trade Centre and the German Development Institute

Workshop on Concrete Measures to Facilitate the Flow of Sustainable FDI

Online workshop for WTO delegates and government officials

11 March 2020

This workshop aims at providing ground-level perspectives on issues relating to investment facilitation for development. These perspectives are meant to enrich the negotiations of a multilateral framework on investment facilitation for development that are beginning on 12 March 2020. They draw on the practical experiences of those most directly engaged in investment facilitation, namely FDI service providers, representatives of international organizations providing technical assistance in FDI matters and other experts. Special attention will be given to ombudsperson-type functions/mechanisms and grievance-management mechanisms within governments.

The discussions are partly informed by “An Inventory of Concrete Measures to Facilitate the Flow of Sustainable FDI: What? Why? How?” prepared for this workshop (attached). The inventory will be updated in light of the discussions at the workshop, as well as other work.

The workshop is carried out in the framework of the ITC/DIE project on Investment Facilitation for Development.
Programme

10:00-10:20 Opening, objectives and keynotes
